Welcome to just Now Vending

We have been operating in the vending industry since 1996 and have set up in excess of 1,000 operators serving some 20,000 machines Australia wide. Our operators are all supported by Just Now Vending's complete "Business Start Up System TM" creating a truly profitable business, resulting in a fantastic lifestyle opportunity.

Work the hours you want, when you want, because the machines all have Back to Base monitoring so you know when to go and what stock items to take. It is truly a simple business that will fit into your lifestyle and provide you with an income that will allow you to do the things that you always wanted to do.

Big Brands are Best

Our dedication to our operators is unmatched and we know that a business development system from Just Now Vending, can be just the right business for you. Our long-established wholesale partners such as Smiths, Schweppes, Coke, Nestle, Frucor and The Distributors offer a truly unique retailing opportunity that is highly profitable from day one with in excess of 100% profits and advertised nationally for FREE. You also get the benefits of their national advertising campaigns.

Today

Over 2 million people per day have access and enjoy convenience from a Just Now Vending machine providing profits for our national team of independent vending machine owners.

50 % of all owners with Just Now Vending are continually expanding their businesses. **So, we know that your success is our success** and we are committed to providing the very best in technology, training and support.

I started with 5 machines earlier this year. Just Now Vending provided the locations and our business has grown dramatically in the four months my fiancée and I have been operating. Based on our current sales we will achieve a profit of around \$28K this year which will help us towards a deposit on a house and pay our mortgage in years to come. I highly recommend Just Now Vending as a great way to achieve an additional income.

Shannon and Matt - North Western Sydney

It's just an application of common sense. 90 % of all businesses are small with up to 30 employees. So, a compact vending machine is the answer for the Australian market. There are thousands of locations available and our machine range is designed to create profits and provide convenience for staff and customers in all types of the workplace.

In any Australian and New Zealand business district there is a mixture of large, medium and small business. Therefore, our unique equipment range is designed to fit all these locations. A Just Now Vending business system is not a package of one type of machine but a mixture of different sized/- style equipment to cater to all levels of business within an area.

Locations

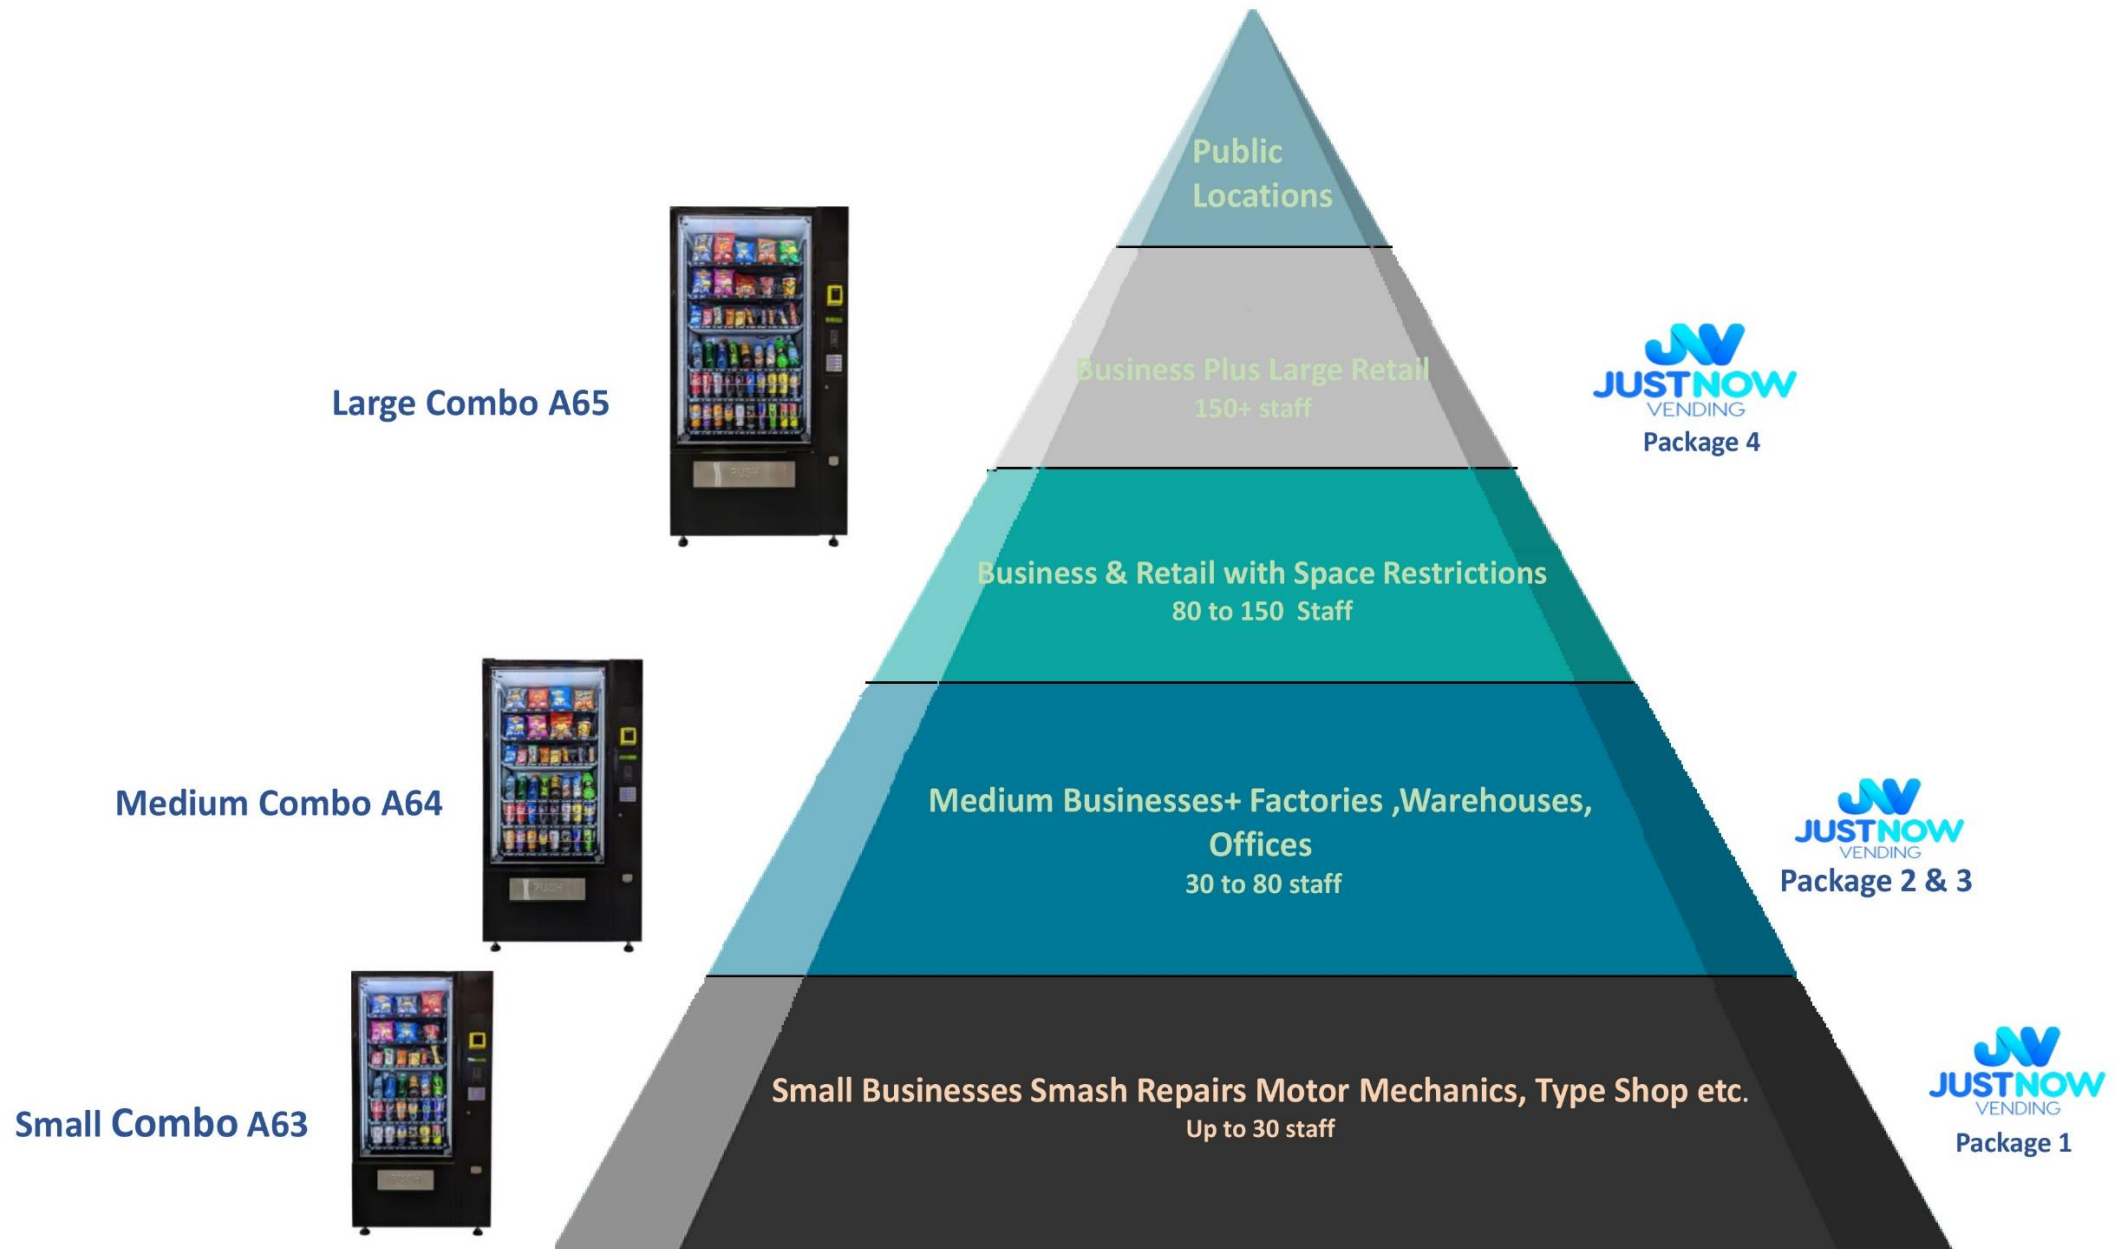

We carefully select the right locations as part of your introduction to this fantastic industry. On any day our locators are negotiating premium locations, ensuring ongoing support for our operators. We specialize in sourcing locations from a wide range of businesses and other venues. These can include, but are not limited to, Businesses, Hospitals, Schools, Colleges, Gyms, Trade Stores, Shopping Centers, Resorts, Hotels, Clubs, and Training Centers. There are many potential locations still available in all states of Australia and experienced site locators will secure the m for you.

Training

Just Now Vending will provide you with a complete training program on how to run a vending business. Everything from the operation of the machine, troubleshooting minor problems and stacking the machine. We also train you in Stock Control and Ordering Procedures, Back to Base Monitoring, Customer Service and how to build the sales volume in your machines.

Ongoing Support

We assist all of our new operators in getting started with this professional business. You own the business and whilst we offer ongoing support, you are not tied to us in any way and are free to run the business the way you want to. There are no ongoing fees or royalties paid back to us. It is your business and your success is our success.
